Remote Control

1. Under normal circumstances, the remote control should be used within the receiving range of about 6 meters and 30 degrees from the device receiving window.
2. When operating the remote, please aim it at the receiving window of the device. There should be no obstacles between the remoter and the device.
3. If the receiving window of the device is placed under a strong light, the operation panel of the remote may malfunction. In this case, please move the device away to avoid direct exposure.
4. When the remote battery has ran out, you can replace the AAA battery to avoid mixing old and new batteries. Please check the batteries regularly to see if they need to be replaced.

Operation

Bluetooth® Mode

- Turn on to enter the Bluetooth mode.
- Then turn on the mobile Bluetooth and search the Bluetooth name of the speaker or find a string of digital code for pairing.
- If there is a prompt to pair the password, please enter “0000” and click confirm connection.

Bluetooth® Recording Mode

- Insert TF card or U disk (should have at least one mp3 file in storage), then switch to Bluetooth mode.
- The mobile phone plays the accompaniment music after connecting to the bluetooth.
- Insert in a wired microphone or turn on a wireless microphone.
- Short press the record button, the Bluetooth internal recording starts to work, and then short press the record button to finish the internal recording and start to play the internal recording file.

Charging Mode

- To protect the performance of the battery, avoid using the machine while charging.
- Connect the charging cable to the QC3.0 adapter of 5V-3A/9V-3A and plug it into the charging port after the machine is turned off. the red light is on when charging, and the red light is off when fully charged.
- Note: The machine has no power bank function, it is forbidden to connect other devices through the USB interface.

- Short press EQ to stop demo

Troubleshooting

If you encounter any problems with your product, please check this list of possible issues for a solution. If you don't find a solution here, contact After Sales Support on 1300 886 649.

Problem	Solution
No sound in USB mode	• Adjust the volume knob. • Adjust the volume of your PC/laptop. • Check that your PC/laptop is on the correct speaker output.
No sound in Bluetooth mode	• Check that you are connected to the Bluetooth device. The LED status indicator should light up blue (flashing indicates it is in pairing mode). • Adjust the volume knob. • Adjust the volume of your Bluetooth device.
Automatically shut down when turned on	• The battery is low, please fully charge the device before use.
The player automatically shuts down or restarts	• The battery is low, please fully charge the speaker before use.
The charging light is not on, not charging	• Check Whether the charging cable is plugged in well or the charging cable is damaged.

Problem	Solution
TF card/U disk playback is silent	• Check whether the TF card is inserted in the correct direction and in place, whether the U disk is inserted in place or in good contact; whether the music format in the TF card or U disk is correct (Note: The music in the TF card/U disk mainly supports MP3 compressed audio files); • Check if the device volume is adjusted to the minimum.
Recording doesn't work	• Check if there are any storage space in the TF card or U disk, If none, delete some unwanted files to regain storage space. • Recording should be in TF card mode, U disk mode

Compliance and Responsible Disposal

Packaging

The packaging of your product has been selected from environmentally friendly materials and can usually be recycled. Please ensure these are disposed of correctly. Plastic wrapping can be a suffocation hazard for babies and young children, please ensure all packaging materials are out of reach and are safely disposed of. Please recycle these materials rather than throwing them away.

Compliance

This product complies with the Australian Safety Standard AS/NZS 62368.1 to ensure the safety of the product.

Battery

When removing the batteries from the remote control and microphone, make sure to keep them out of reach of infants and children. Seek medical attention immediately if a child has swallowed a battery. Please dispose of batteries responsibly by recycling at your nearest recycling centre.

WARNING: Batteries must not be exposed to excessive heat such as sunshine, fire or sources of heating.

Product

At the end of its working life, do not throw this product out with your household rubbish. An environmentally friendly method of disposal will ensure that valuable raw materials can be recycled. Electrical and electronic items contain materials and substances which, if handled or disposed of incorrectly, could potentially be hazardous to the environment and human health.
